Meeting 3 September 9, 2021

Google Meet

Discussion:

1. User Interface template (Presented by Lydia, Ammar, Ashraf)

    - Restaurant layout should be set up by shop manager, cannot be fixed by hardcode

    - Standardize the design among modules (header, color etc)

    - Manager and admin functionalities ui design should be the same

2. Progress

    - Take note the business process flow for the development

    - Speed up the progress

Next Action:

No	Action	Date
1.	Present few user interface that fully functioning (registration, booking, etc)	21 September
2.	Everyone designs their own module based on the database
